

## Summer Reading Program 2021 White Oak Intermediate

Dear Parents,

We are excited to announce that White Oak Intermediate will be hosting a Summer Reading Program. During the summer months, students will document their reading on a reading log at home. Students that complete this challenge will return their reading log back to school in August. The reading log must be signed in order for the child to receive credit. Students will receive 2 tokens for our new Book Vending Machine.

Reading during the summer is very important. The benefits of a summer reading programming:

- Motivation to read
- Children develop the love for reading
- Children maintain their reading skills during summer months
- Children have access to experiences that further their sense of discovery
- Helps with fluency and comprehension

Requirements:

**3rd,4th, and 5th Grade- 40 Books (can be picture or chapter books)**

Thank you for supporting your child and their education.

Shelby Skeen  
Elementary Librarian
